Civil Engineer | Structural Designer | Construction Manager

PROFESSIONAL PORTFOLIO

RATHRUN KAKADA

Areas of Expertise

Structural Engineering · Construction Management· Research

Selected Works & Experience

PROFESSIONAL PROFILE

I am a civil engineer with strong professional experience in **structural design, construction management, and quality control**, supported by both **site-based engineering practice** and **academic research activities**. My background includes residential and commercial building projects, where I have been actively involved in structural analysis, construction planning, method statement preparation, and daily site coordination.

I have practical experience in preparing **structural drawings**, **cost estimation**, **construction schedules**, and **safety protection systems**, ensuring compliance with engineering standards and site safety requirements. Alongside my professional work, I have also contributed to **teaching and mentoring engineering students**, emphasizing practical knowledge, problem-solving skills, and real construction-site applications.

Academically, I am highly motivated to pursue **PhD-level research in structural engineering**, with a research interest focused on **resilient and sustainable structural systems** and the integration of **artificial intelligence and data-driven approaches** in civil engineering. My long-term goal is to bridge professional engineering practice with advanced academic research to contribute to innovative and sustainable infrastructure development.

AREAS OF EXPERTISE

Structural Engineering

- Structural analysis and design of reinforced concrete structures
- Preparation of structural calculations and design reports
- Structural detailing and construction drawings
- Review of drawings and identification of design conflicts

Construction Management

- Construction planning and sequencing
- Daily, weekly, and monthly work scheduling
- Coordination between site teams, consultants, and contractors
- Monitoring construction progress and contract deadlines

Quality Control & Safety

- QA/QC inspections and compliance monitoring
- Preparation of method statements for structural works
- External and internal safety protection systems
- Risk assessment and site safety control

Research & Digital Skills

- Python programming for engineering applications
- Artificial intelligence and machine learning fundamentals
- Data analysis for engineering decision-making
- Technical reporting and academic writing

EDUCATION

Master of Civil Engineering (2022 – 2024)

International University

- Advanced structural engineering courses
- Research-oriented academic training
- Preparation for doctoral-level research

Bachelor of Civil Engineering (2017 – 2022)

National Technical Training Institute (NTTI)

- Structural design and construction technology
- Engineering mechanics and materials
- Graduation project and professional practice

PROFESSIONAL EXPERIENCE

Teacher in Civil engineering, Short Course (2022 – Present)

- Taught Structural Design, BIM, and CAD drawing
- Guided students toward practical engineering problem-solving
- Encouraged academic excellence and professional discipline

(Private School Location)

(Activity in Class : teaching structural design)

(Activity in Class : teaching CAD drawing)

(Activity in Class : teaching BIM drawing)

- Guided student interns on construction site.

- Introduced to student about Finishing works:
    - Tile Installation
    - Ceiling Installation
    - Masonry works
    - Painting works

- Introduced to student about structure works:
    - Soil Compaction
    - Formworks Installation
    - Rebar Installation
    - Site preparation

Project Factory Pochentong (2025 – Currently)

Construction Manager

- Construction Supervision
- Quality Assurance & Quality Control (QA/QC)
- Safety & Risk Management
- Project Planning & Coordination
- Documentation & Reporting
- Leadership & Team Management

Project Name: Factory Pochentong

Location: No. A3 Plov betong, Prey pringtboung Village, Sangkat Choam Chao, Khan porsenchey, Phnom Penh.

Google Map: https://maps.app.goo.gl/KfFTLK27u6nN2HAd7

Leading Construction Activities

(Fabricating steel beam and column)

(Rebar Installation)

Slump Test Activities

Concrete Compressive Test Activities

Steel (J-bolts) Tensile Test Activities

Project Lumi Toys&Café (2025-2026)

Construction Manager

- Design & Technical Management
- Construction Supervision
- Quality Assurance & Quality Control (QA/QC)
- Safety & Risk Management
- Project Planning & Coordination
- Documentation & Reporting
- Leadership & Team Management

Project Name: LUMI Toys & Cafe

Location: Koh Norea, Phnom Penh, Cambodia , Phnom Penh, Cambodia

Google Map: https://maps.app.goo.gl/99VYHJ2eyyj3uyJx5

Leading Construction Activities

- Guided Junior engineer on construction site.

- Installing Precast slab.

- Beam's Rebar installation

(Beam's Rebar installation)

Slump Test Activities

Compressive Test Activities

Project Megabelle Clinic (2021 – 2023)

Construction Manager

- Prepared method statements for pile caps, beams, columns, and slabs
- Developed safety protection plans (internal and external systems)
- Issued construction drawings and coordinated revisions
- Solved on-site construction challenges to maintain progress
- Led daily site operations and supervised construction teams
- Prepared daily, weekly, and monthly work plans
- Trained and supervised engineering interns

Project Name: Megabelle Clinic

Location: St. 566, Sangkat Boeung Kok, Khan Toul Kork, Phnom Penh, Cambodia

Google Map: https://maps.app.goo.gl/9cHo4mCySea6snuM8

Trained and supervised engineering interns

- Guided student interns on construction site.

- Managing of casting Concrete activities.

- Teaching student about Surveying works.

Managing works at site construction

Technical Drawing

BOREPILE LAYOUT PLAN

SCALE (1 : 150)

**REMARK:
BP1 : ∅1x21m
BP2 : ∅0.8x21m
BP3 : ∅0.6x15m

BORE PILE Schedule				
Type	Q'ty	Width	Length	Volume
BP1	23	1.0 m	21 m	379.34 m³
BP2	9	0.8 m	21 m	95.00 m³
BP3	6	0.6 m	15 m	25.45 m³
TOTAL: 38	38			499.79 m³

NOTE :
1. ALL DIMENSION ARE IN MILIMETERS EXCEPT INDICATED
2. ALL LEVEL ARE IN METERS EXCEPT INDICATED
3. CHARACTERISTIC CYLINDER COMPRESSIVE STRENGTH OF CONCRETE SHALL BE MINIMUM OF 35MPa (PILE CAP , COLUMN CONCRETE) AT 28DAYS.
4. REINFORCING STEEL YEILD STRENGTH TO BE MINIMUM OF :
   - 390MPa FOR DEFORMED BAR (DB)
   - 235MPa FOR ROUNDED BAR (RB)
5. CLEAR COVER SHALL BE lateral=50mm, inside=50mm top=50mm, bottom=100mm, UNLESS INDICATED OTHERWISE.

Project: Shop House (Oct 2021 – Dec 2022)

Structural Engineer

- Structural method statement preparation
- Site coordination and workforce supervision
- Quality and safety compliance monitoring

Project Name: Shop Houses

Location: Sangkat Kouk Roka, Khan Preaek Phnov, Phnom Penh, Cambodia

Google Map: https://maps.app.goo.gl/ZwXiwY5K6obSuVmj7

Works at site construction

(Rebar Installation)

(Casting Concrete)

(Meeting with workers at site)

Project: Booyong (Jan 2021 – March 2021)

QA/QC Engineer (finishing works)

- Monitored construction quality and compliance
- Conducted site inspections and reporting
- Coordinated with site engineers and supervisors

Project Name: Flats Houses

Location: Sangkat Phnom Penh Thmey, Khan Sen Sok, Phnom Penh, Cambodia

Google Map: https://maps.app.goo.gl/F6D7K8pebZpMK38N8

Works at site construction

TF Engineering Co., Ltd (Jan 2020 – June 2020)

Structural Designer

- Performed structural analysis and design calculations
- Prepared tender documents and cost estimates
- Conducted QA/QC inspections and reporting
- Prepared as-built drawings and documentation

Company Name: TF Engineering Co., Ltd.

Location: Borey Piphup Thmey, Khan Sen Sok, Phnom Penh, Cambodia

Google Map: https://maps.app.goo.gl/iZYQF7auzBsSHr616
